

## Sanitary Process Components & Instrumentation

Cadence Technologies provides sanitary process equipment, instrumentation, and services to the food, beverage, and pharmaceutical industries. We are a proud authorized distributor of the following manufacturers:

**>APV®**

Provides a unique range of advanced technology product including pumps, valves, homogenizers, mixers and heat exchangers. Industry focused on food, beverage, dairy and life sciences.

**SPXFLOW**

**>Waukesha  
Cherry-Burrell®**

Supplier of component equipment including pumps, valve, heat changers, filters/strainers, and dispersion equipment.

**>Gerstenberg  
Schröder®**

The GS brand comprises scraped surface heat exchanger technology, and emulsification equipment used for processing of e.g. margarine, butter, spreads, shortening, puff pastry, ice cream, mayonnaise, sauces, and dressings.

 **SANITARY BY DESIGN  
ANDERSON-NEGELE**

Global instrumentation company with instrumentation solutions for processors of food, beverage, and life sciences.

**MURZAN**

Develops and manufactures pumps and process equipment for food, poultry, meat, seafood, pharmaceutical, beverage, cosmetic, and biomedical industries.

### Additional Supported Manufacturers

## Certified Repair and Rebuild

Cadence Technologies offers repair and preventative maintenance service for sanitary pumps and valves.

### Pump

All pump repair and maintenance includes a complete evaluation report outlining current conditions, cause analysis summary and recommended changes. Cost of service and spare parts are compared to replacement of equipment to ensure the best value for the customer.

Maintenance services cover both "wet end" and "gear end." Bench testing is performed prior to shipping to ensure a successful start-up.

#### Key Items of Service:

- Inspection
- New bearings, seals, rotors, shafts, gears and paint
- Multiple levels of repair / maintenance
- Preventative maintenance programs available
- On-site service / repair
- Re-manufactured pumps carry a full 1-year warranty
- Complete documentation of service

### Valve

Valve services cover most manufactures of sanitary manual, single seat, and mixproof valves. Our service covers both the product and actuator sides of the valve. Prior to release, all equipment is actuated to ensure proper repair and successful installation.

Our service program cover individual valves or complete preventative maintenance programs.

#### Key Items of Service:

- Inspection
- New elastomers, seats, and other wear parts
- Replacement of stems and balancers (if needed)
- Bench testing and documentation
